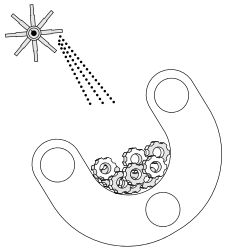
WHICH WHEEL BLAST SYSTEM IS RIGHT FOR YOUR APPLICATION?

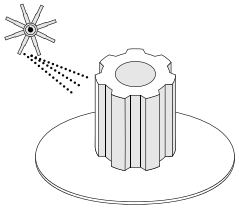
EMPIRE ABRASIVE EQUIPMENT

TUMBLE BLASTER



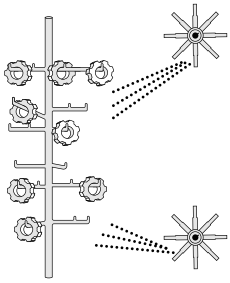
- Small durable parts
- High volume production
- Parts can contact each other

TABLE BLASTER



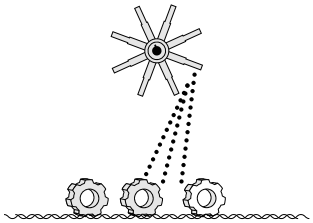
- Large heavy parts
- Odd shapes
- Lower volumes

SPINNER HANGER



- Delicate parts
- No part-to-part contact
- Need complete coverage

CONTINUOUS THROUGHPUT / INLINE



- Continuous production
- Lean manufacturing
- High throughput

Still not sure?

Send your parts to Gibson for a full evaluation of your parts and process in our Demonstration Lab.
